

NOTICE

Ref: FUEL SURCHARGE APPLICATION FOR GATE SERVICES

To: Valued Customers

SSIT would like to extend our sincere appreciation to our Valued customers for your continued support and trust in our services.

In light of ongoing fluctuations in fuel costs, SSIT has made every effort to absorb the resulting increase in operating expenses while maintaining stable service quality. However, persistent cost pressures have necessitated a revision to our pricing policy. SSIT hereby respectfully announces the introduction of a fuel surcharge for gate services as follows:

1. Fuel surcharge tariff:

Fuel Surcharge Tariff applied for LO-LO Gate _SSIT Public Tariff

Unit: VND/container

No.	DO Price (VND/liter)	20'	40'	45'
1	≤ 25,000	0	0	0
2	25,001 – 35,000	20,000	30,000	45,000
3	35,001 – 45,000	30,000	45,000	67,500
4	45,001 – 55,000	40,000	60,000	90,000
5	Above 55,000	50,000	75,000	112,500

Note: The above surcharges don't include VAT yet

2. Application principle:

- The surcharge shall be applied in accordance with fluctuations in DO 0.05S-II (Region I) fuel prices, as announced by the Vietnam National Petroleum Group (Petrolimex) on the website: www.petrolimex.com.vn. The fuel price will be updated by SSIT at 09:00 every day in case of any changes.
- The surcharge shall be applied at the same level to all container types, including dry, reefer, dangerous, out-of-gauge (OOG), overweight, and other special containers.
- The surcharge rate shall be determined based on the time at which the Customer completes payment for gate-related delivery and receipt transactions at the port. Advance payments for such transactions may be made up to five (05) days prior to the actual container gate-in or gate-out. In cases where the surcharge rate changes

between the time of advance payment and the actual gate-in/gate-out, the applicable rate will remain that which was in effect at the time the Customer made the payment, and the invoice will be issued accordingly.

3. Effectiveness:

- The above surcharge shall take effect from **24th April 2026**.
- The surcharge shall cease once the price of DO 0.05S-II diesel (Region 1), as published by Petrolimex falls below VND 25,000/liter.

We sincerely appreciate your understanding and continued support during this challenging period.

Yours sincerely,

Phan Hoang Vu
General Director
