	Enable and Share 2FA Code	Page 2 of 3

1. **To enable 2FA on SSIT ePort, please follow the below instructions.**
   1.1. Go to "**Security**" → enable "**2- Step Verification**"

   1.2. Open Google Play (Android), App Store (iOS) or use this link to download Google Authenticator.
   https://play.google.com/store/apps/details?id=com.google.android.apps.authenticator2&hl=en&gl=US
   1.3. Use **Google Authenticator** application to scan QR code.
   1.4. Click "**Verify**" and input OTP as requested.

2. **To share 2FA code to other people (for instance, phone 1 share 2FA code to phone 2), please follow the below steps.**

   2.1. Install **Google Authenticator** application on phone 2.
   2.2. Make sure **Google Authenticator** application is updated with the most current version on both phones.
   2.3. Open **Google Authenticator** application on phone 1, choose "**Transfer accounts**".
